

# dust collection & trim handling systems **VELOCITY**

Dust collection systems for the paper, converting, and printing industry.

- Tissue machines
- Combining rewinders
- Converting machines
- Printing machines

Typical dust collection system layout for a rewriter.

We can supply complete systems or various components for the following systems and provide them as turnkey installations if desired:

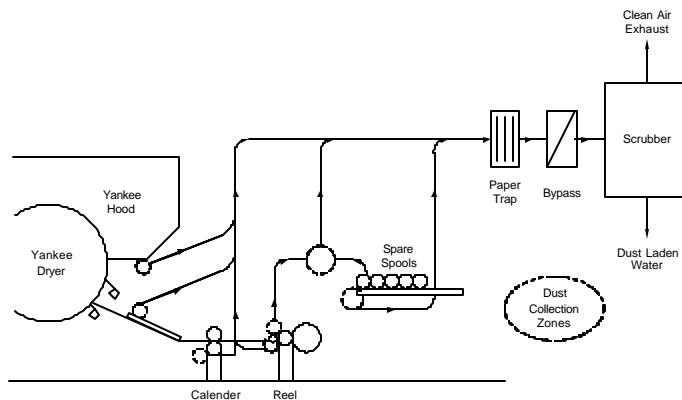

- Wet systems
- Dry systems with various dust collection filters

## **Velocity** guarantees dust collection system performance!

We have combined the North American and European dust collection technology and experience to provide a practical and economical dust collection system tailored to your requirements.

***If you desire, we can take air samples around your machinery to establish the present dust levels.***

Typical dust collection system layout for a tissue machine.

We welcome the opportunity to assist you in solving your dust control problems.
